

109 Glenwood Boulevard,
Schenectady, N.Y.,
Dec. 4, 1922.

My dear Commerford:

Your favor of the 3rd is here. In regard to that Edison memorial monument, possibly to be erected at Mendle Park, I simply butted in. I am in no way an official of the Edison Pioneers, but knowing a meeting was to be held, and learning that such a monument was being talked about, to be built from the machine shop bricks, and especially not liking the designs suggested that came to my ear, I thought it well to put a word in edgewise, and a particularly proper time to do it.

Hence my letter and blueprint design to Insull, as Pres. Edison Pioneers, of which you and Lieb have copies. And at that point my self-elected functions cease. I have no more to do with it. The matter was brought up at the E. P. meeting, made a favorable impression, so I hear, and was turned over to their Memorial Committee, of which Lieb is chairman. Now, Commerford, go ahead and do as you please to further the monument scheme.

Don't overwork on those histories. The G. E. Review, with my article, is out. You will soon receive a copy; but don't anticipate much — it is short, even if sweet.

I go to Washington to a conference, Dec. 6th, on a Nat. Engineering Museum.

Sincerely yours,

T. C. Martin, Esq.
Ringville P. O., Mass.

Chas. L. Clarke.
